

Anant Print n Pack

PACKAGING THAT PROTECTS. PRINTING THAT IMPRESSES.

About Anant Print n Pack

Our Story & Legacy

Our parent Company Raj Industries , from last 21 years has carved a niche in corrugated packaging and printed packing solutions. With same values and ethos, Anant Print n Pack was founded and is focussing on craftsmanship and innovation, we serve several industries with packaging that protects products and elevates brands.

Mission & Vision

Mission: To deliver premium-quality packaging solutions that combine innovation, durability, and design excellence – empowering our clients' brands at every touchpoint.
Vision: To be India's most trusted packaging partner, championing sustainable manufacturing and ensuring highest levels of customer satisfaction.

Our Core Values

Quality First – Uncompromising standards at every production stage.
Customer Focus – Tailored solutions built around your unique needs.
Innovation – Continuously investing in modern machinery and creative design to stay ahead.

ManufacturingExcellence

Raw Kraft Paper

- Premium virgin and recycled kraft paper rolls sourced for optimal strength and printability. Grammage selection tailored to box specification – ensuring structural integrity from the very first layer.

Corrugation Process

- Single, double, or triple-wall fluting formed under precision heat and pressure. State of the art corrugation machines deliver consistent flute profiles for superior cushioning and load-bearing capacity.

Printing & Finishing

- High-quality printing on our RS4 rotary machine, delivering sharp, consistent, and cost-effective results. Our in-house printing capabilities ensure precise branding and reliable quality across every order.

Manufacturing Excellence

Die Cutting

- Expertly crafted die-cut packaging designed to bring your unique ideas to life. Our precision die-cutting process delivers clean edges, accurate shapes, and intricate designs, ensuring every package meets your product's specific requirements with consistency and attention to detail.

Pinning & Gluing

- Our folding, pinning and gluing lines turn flat blanks into finished, ready-to-use boxes. Skilled operators apply adhesive and pinning with care, ensuring strong joints, clean folds, and consistent quality across every production run.

Manufacturing Excellence

1

Quality Inspection

Every unit undergoes rigorous multi-stage quality inspection – dimensional accuracy, print fidelity, structural integrity, and burst strength are tested to meet industry standards and client specifications before dispatch.

2

Finished Packaging

Precision-finished packaging is carefully stacked, bundled, and prepared for delivery. Each corrugated box, monocarton, and specialty pack is handled with care to preserve quality from our floor to your facility.

3

Our Quality Promise

Our end-to-end process ensures every finished product reflects our commitment to premium quality, durability, and on-time delivery – reinforcing Anant Print N Pack's reputation as a trusted packaging partner.

Product Portfolio Overview

Corrugated & Printed Boxes

- Corrugated & Printed Boxes – Durable, multi-layer protective packaging and high-quality RS4-printed boxes with vibrant branding, alongside premium folding cartons for FMCG, pharmaceutical, and retail applications.

Custom Packaging

- Die Cut Boxes – Precision-cut custom shapes for unique product fits. Heavy Duty Boxes – Extra-strength solutions for industrial and bulk shipments.

Food, Industrial & Custom

- Toys
- Stationary packs
- Home Lighting
- Qcomm products

Sustainability Commitment

Eco-Friendly Packaging

Our packaging solutions are designed with environmental responsibility at the core. We use sustainably sourced kraft paper and corrugated materials that minimize ecological impact while delivering superior protection. Every product is crafted to reduce carbon footprint without compromising on quality or performance.

Recyclable Materials

All our corrugated boxes, monocartons, and printed packaging are manufactured using 100% recyclable and biodegradable materials. We actively promote a circular economy by ensuring our packaging can be fully recovered, reused, or composted – reducing landfill burden and supporting a greener planet.

Sustainable Manufacturing & Waste Reduction

Our state-of-the-art facility integrates energy-efficient machinery, responsible water usage, and rigorous waste management practices. We continuously reduce production waste through lean manufacturing, material optimization, and responsible sourcing – committing to a sustainable future for our clients and communities.

Why Choose Us

Modern Machinery

- State-of-the-art corrugation, printing, and die-cutting equipment ensures consistent precision and high output. Our advanced production lines deliver superior structural integrity and print accuracy on every order.
